Take a dynamic approach to the study of

# CULTURE & HEALTH CARE RELATIONSHIPS!

### How do you perceive your cultural identity?

All of us are shaped by the cultures we interact with and the cultural backgrounds and ethnicities that are part of our heritage. Dr. Marilyn Ray shows how cultures influence one another through inter-cultural relationships, technology, globalization, and mass communication, and how these influences directly shape our cultural identities in today's world.

### The transcultural awareness and caring theoretical model enables students and clinicians to...

1. Assess their cultures.
2. Recognize their cultural identities.
3. Use transcultural awareness in decision making.
4. Analyze and engage in interventions by applying the appropriate tools for a situation.

This new book goes beyond common stereotypes to provide a framework that can positively impact the nurse-patient relationship and the decision-making process.

### Outstanding Features

- Updated with 8 NEW chapters on real-world examples of transcultural caring, including: Ebola and the Culture of Caregiving in Sub-Saharan Africa.
- Explores transcultural caring dynamics • ethical principles • transcultural context • universal sources • and developing a personal, cultural, and decision-making foundation.
- Offers transcultural tools for caring dynamics assessment • culture-value conflict assessment • spiritual-ethical communicative caring • caring choice • and communicative interaction.
- Uses self-awareness tools to help your students understand their personal beliefs and how those beliefs influence their assessments of and care planning for their patients.
- Illustrates concepts with 25 case studies with learning activities that ensure students' mastery of the techniques of transcultural assessment and caring.
